

# Technical Session Proposal

*This is your opportunity to present at next year's conference!*

## Join us for the **IMSA** **115th Annual Conference** **and 33rd Annual School**

**June 22–29, 2010 — Dallas, Texas**

**IMSA** is accepting technical session proposals for the 2010 Annual Conference. Programming is based on this Call for Presentations, bringing relevant information to association members. Attendees tell us our conference provides them with a great forum for information exchange, problem solving and networking. Presentations will be for general and concurrent sessions.

Go to [www.IMSAsafety.org](http://www.IMSAsafety.org) and click on the [2010 Technical Session](#) link. You will be asked to provide the following information:

- Name(s), Title(s), Company, Contact Information
- Proposed Session Title
- 75–100 word description of session, being as specific as possible
- Three objectives attendees will learn
- Approximate time needed for presentation
- Target audience
- You will be asked if the program has been presented elsewhere and when

If your proposal is selected, you will be required to provide handouts to enhance your presentation. Also, due to budget limitations, IMSA is unable to cover speakers' expenses and registration fees.

**NOTE: Any presentation of a commercial nature will not be considered.**

**Submission Deadline: November 20, 2009**

IMSA will contact you to discuss your proposed session.  
Final determination will be made by January 2010.
