## About the Cover . . .

"The Bay Bridge east of San Francisco" submitted by new sustaining member Strategic Telemetry, represents the power and intelligence of their revolutionary adaptive lighting control systems."

## PRESIDENT'S REPORT

As my tenure comes to an end, and I step down as president, I'm so grateful for such an awesome experience; it has been one that I will never forget. I sit here wondering in my mind if in fact the IMSA is better off now than when I began; and without any hesitation I can honestly say, yes. Then I ask myself, why?

It's not anything I did personally, but the personal support I have received from my family that has allowed me to be a little part of this organization. So to my lovely wife Tina, my son Jarred, my baby girl Kim, and my little princess Shaelynn I love you all and thanks for your support.

It is the support I have received from the International office. From Sharon encouraging me to get my reports done, to Lori and Amanda helping me with Certification and renewal issues, any time that I have called they have been great. Marilyn, thanks to you and all of your staff, for an awesome job.

It's the support from the Executive Committee and those volunteering their time. Not only volunteering for the Executive Committee but other committees such as the Governance Task Force, Section Review Task Force, Certification Committee, Budget Committee, Audit Committee, and all the other committee members.

To every Section Director, President, Vice President, and all of the other section officers, a sincere thank you. You all have volunteered your time in promoting and supporting the IMSA. Whether it's been in helping your section in putting on a certification school, tech session, or attending the annual conference your time is appreciated.

As a result of the efforts of the International staff and every single volunteer our membership has increased and we have increased our partnerships with other organizations and agencies. I believe we are entering the threshold of being the Leader in Certification and Training for Public Safety. This is why I feel we are better off now than when I started.

To every IMSA member, associate member, sustaining member, staff member, to every volunteer, thank you for your time and thank you all for allowing me to be a small part of your organization. I look forward to the future of the IMSA and the direction that we going. Remember to visit our web site at [www.IMSAafety.org](http://www.IMSAafety.org) Again to all of you "I say thank you".

Lenny Addair
